COMMENTS: RM-7649

I am in favor of this petition submitted by Tom Blackwell N5GAR and Joe Jarrett K5FOG to provide a new paragraph G to 47CFR Part 97.205. Their proposal would give the Commission latitude to hold the originating station primarily responsible for prohibited transmissions, and to issue sanctions as required, without removing the present provisions in the Amateur Service Rules that require all stations who automatically relay such transmissions to maintain responsibility for their stations' operation and content of transmissions so relayed. I should think that the Commission and its engineers and field operations personnel will welcome this needed clarification and flexible language added to the present Rules. I can see where no one is hurt or inconvenienced by this addition.
